

**Advantages of  
Filatherm™ Dry Electric Element  
Over Oil-filled or Hydronic Units**

Features	Benefits
Uses less energy than the average light bulb	Saves electricity
Safe to leave running	Easy to use, don't need to turn on and off
Maintenance free	We can guarantee our units will never leak, so there's no risk of damage to walls and flooring or risk of injury
Helps reduce humidity	Assists to deter bathrooms' damp & mildew
Not designed to heat room	Use year round to dry towels
Quicker warm up times	Don't have to wait as long for towels to warm
Safe operational temperature	Consistent temperature through unit – no 'hot spots'
Lighter in weight	Save on shipping costs
Quick and easy to install	Save on contractor costs or can self-install
Dries towels	Save on laundering, energy, water & detergent costs. Towels look new for longer
Dries clothing – delicates, hand washables, winter coats, ski gear	Save on energy, extend life of clothing. Dry women's underwear and other items that shrink or damage from being dried in a tumble dryer
Dry swimming towels and suits	Save on laundry, can re-use towels
